German's Seeds Germinate

GERMAN'S SEEDS are obtained from the best sources available and are for the most part originators' stock. The remainder are obtained from leading American and European growers.

We solicit business from the critical florist grower. In "Florists' Flower Seeds" we have tried to do all possible to list the most profitable and leading strains available today.

We sell only seeds of good vitality, which will grow under normal conditions. All seeds are tested in our own laboratory before shipping.

H. G. German gives no warranty, express or implied, as to the productiveness of any seeds or bulbs he sells and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

We invite inquiries from large growers. Write us about your requirements on any seeds listed in this catalog, and we will answer promptly.

Discounts: When cash accompanies order, a discount of 5 per cent is allowed on orders less than \$25.00, over \$25.00, 8 per cent.

A 2 per cent discount may be deducted on bills for flower and vegetable seeds if payment is made within 10 days from date of bill.

TERMS: 60 days net.

All prices in this catalog subject to change without notice.

All seed orders sent prepaid to U. S. and Canada.

All items in this catalog are offered subject to crop failures or shortages.

Orders shipped by return mail

ANTIRRHINUM (Snapdragon)

"Long Season Culture of Forcing Varieties" by A. J. Snyder of Rockwood Floral Co., Inc., an interesting booklet on "Snap" culture, gives the planting and flowering dates for different seasons, number of days from planting seedlings to benching, etc. It will tell you when to plant in order to strike any season. Sent free upon request.

"SNAPS" for Greenhouse Forcing

For years we have made a specialty of our varieties of "Snap" seeds and they have been enthusiastically received by the trade. For the convenience of our florist trade we have divided our list into Hybrids, early crop and main crop. Our trade packets contain approximately 2500 seeds; originator's packets vary considerably, from 1200 to 2000 seeds. Originator's packets are shown with the originator's name in parentheses.

ANNUAL LARKSPUR, Giant Imperial or Base Branching

Numerous colors are offered to the florist, but we find that a limited number of favorites will answer all requirements. A January sowing will bloom about May. An outdoor planting made in the spring as early as it is possible to get the ground prepared does very well. To increase germination, chill this seed in an ice-box for several days before sowing.

Blue Bell. Excellent mid-blue. **Lilac King.** Light lavender.

Blue Spire. Deep violet-blue. **White King.** Best clear white.

Dazzler. Rich carmine-scarlet. **Special Mixture.**

DOUBLE PETUNIAS

German's Special All-Double Mixture. This is our own mixture from the best varieties. It is carefully blended from the best colors of Pan-American, Canadian and Sakata strains. All are large flowered and a high percentage are fringed. Our careful blending assures you of the finest range of bright-colored, dwarf, compact plants. Introduced last year and fast gaining in popularity. Because it is mixed from separate colors, the price is in line with those varieties. 1000 seeds \$4.00, 1/128oz. \$7.50, 1/64oz. \$14.45.

PAN-AMERICAN ALL-DOUBLES

In our opinion the most outstanding strain of Double Petunias offered today. Plants branch freely, are sturdy, compact, free flowering and the flowers are large and deeply fringed.

Allegro Improved. This outstanding variety has been greatly improved. Deep salmon, dwarf, giant fringed. A lovely new color.

Caprice. Beautiful, deeply fringed bright rose flowers on dwarf compact plants. The best Double rose obtainable.

Minuet. Lovely orchid-lavender. Newly improved 100 percent grandiflora, dwarfer than heretofore.

Nocturne. Deep midnight-purple flowers, very large. This strain has been much improved since first introduced.

Rhapsody. (New.) Deep Burgundy-wine-purple, huge fringed flowers; very uniform. Dwarf, vigorous, free branching. The finest in its color class. Try it.

Sonata. The best double white ever offered to the trade. Very large flowered and deeply fringed. No semi-doubles.

Any of above in originator's packets, 1/2tr. pkt. \$2.50, tr. pkt. \$4.00, 1/128oz. \$7.60, 1/64oz. \$14.45

Glorious Mixture. Contains six separate colors in the following amounts: Allegro 25%, Caprice 35%, Minuet (orchid) 5%, Nocturne 5%, Rhapsody 10%, Sonata 20%. 500 seeds \$2.00, 1000 seeds \$3.50, 1/128 oz. \$6.65, 1/64oz. \$12.60.

America Improved. Larger flowers of the same color as the original. Flowers 2½ in. in diameter; plants vigorous. Tr. pkt. (1000 seeds) \$2.00, 1/64oz. \$6.50.

Rose of Canada. Fully double, bright medium to deep rose flowers about 3 in. in diameter. Compact, bushy plants. $\frac{1}{2}$ tr. pkt. \$2.00, tr. pkt. \$3.50, $\frac{1}{128}$ oz. \$6.65, $\frac{1}{64}$ oz. \$12.60.

Canadian Mixture, Improved. (100% double.) Plants are uniformly dwarf, but vigorous and free branching. $\frac{1}{2}$ tr. pkt. \$2.00, tr. pkt. \$3.50, $\frac{1}{128}$ oz. \$6.65, $\frac{1}{64}$ oz. \$12.60.

All-Double America. (100% double.) Deep rose, medium sized, carnation-flowered. Very free blooming. Tr. pkt. \$2.00, $\frac{1}{64}$ oz. \$6.50.

SAKATA'S ALL-DOUBLE DWARF (VICTORIOUS) FRINGED

Blue Brocade. Well-known, true violet-blue, fringed flowers $3\frac{1}{2}$ to 4 in. in diameter, are borne on 10-in. plants.

Gaiety. An old favorite, dwarf type in rose or light rose, red and white. Flowers $3\frac{1}{2}$ to 4 in. in diameter. A wonder for combination work.

Illumination. Bright red overlaid with a scarlet sheen. Good color and habit.

Extra Dwarf Pure White. (New.) The originators claim this is the most dwarf white double. 10-in. plants with 4-in. flowers.

Rosy Carmine Improved (World Beauty or Pink Perfection). This improved variety has a brighter rose color and is more uniform in growth. 10-in. plants with 4-in. blooms. A "must" for pot-plant growers.

Any of above, $\frac{1}{2}$ tr. pkt. (400 seeds) \$2.00, tr. pkt. (800 seeds) \$3.50, $\frac{1}{64}$ oz. \$11.00

DWARF CALIFORNIA GIANTS IMPROVED. (5 to 7 in.)

We have a strain of Dwarf Giants of California developed by reselection over the past ten years. We have found it equal to or better than any other. Among the testimonials we have received, we quote the following: "We want to thank you for your help in selecting our flower seeds, especially the Petunias, which proved to be a complete success. Our Dwarf Giants of California is the by-word in this community. Our customers remarked that they had never seen anything like them. Some of them were fully 9 in. across the bell and the plants only 9 in. high."

Dwarf Giants of California, Extra-Dwarf Giants. Our best mixture, this new strain has been bred to fill the need for a truly dwarf pot Petunia. Flowers have well-marked open throats and are beautifully ruffled and fringed. Tr. pkt. \$1.50, $\frac{1}{64}$ oz. \$3.00, $\frac{1}{32}$ oz. \$5.50.

German's Special Dwarf Giants of California. Uniformly dwarf, not grown as a mixture but blended from separate plant selections. The color range includes new shades of pink, salmon, rose and copper. Tr. pkt. \$1.50, $\frac{1}{64}$ oz. \$2.50, $\frac{1}{32}$ oz. \$4.50, $\frac{1}{16}$ oz. \$8.00.

Extra Choice Dwarf California Giants Mixed. More vigorous than Extra Dwarf Strain; therefore better for bedding. $\frac{1}{64}$ oz. \$1.75, $\frac{1}{32}$ oz. \$3.00, $\frac{1}{16}$ oz. \$5.75, $\frac{1}{8}$ oz. \$10.00.

Ramona Strain, Light Shades. Sturdy plants especially bred for pot culture. Light shades predominate. $\frac{1}{64}$ oz. \$1.75, $\frac{1}{32}$ oz. \$3.00, $\frac{1}{16}$ oz. \$5.50.

QUALITY OF VEGETABLE SEEDS

NOTICE: We have either visited the trial grounds of the growers from whom these seeds are purchased or had their strains in our own trial grounds. It is our opinion that there are too many inferior (or cheap) seeds on the market today. We have spared no expense in obtaining the seeds in the following list, and we offer only those considered by us to be outstanding strains. We are proud to offer these Extra-Select Strains and assure you that our vegetable seeds are of the same high standard as our Florists' Flower Seeds.

EXTRA-SELECT *Vegetable Seeds*

Days to maturity: The number of days indicated are from setting out plants to open fields, as applied to broccoli, cabbage, cauliflower, celery, pepper, and tomato, which ordinarily are transplanted.

TOMATOES, Continued

Stokescross F₂ Hybrids

The astonishing hybrid vigor of the Stokescross Tomatoes will, in varying degrees, develop these advantages: production increase up to 30%; earlier, more continuous and profuse fruit setting; more extended harvest season; distinctive qualities of color, flavor and firmness; less cracking of fruit.

Stokescross No. 1. Extra-early—60 days. Average weight 3 ozs. Color and flavor are unique. Plants may be set 2 by 3 ft., for the foliage is light. \$1 00 \$5 00

Stokescross No. 3. 65 days. This variety will mature a profusion of 5-oz. Tomatoes. Developed for the shipping trade and for northern processors. 1 00 5 00

Stokescross No. 5. Early main-crop—70 days. Average weight 6 ozs. Distinguished by its amazing vigor. Production increase up to 30% is not unusual. Rich flavor and high color. 1 00 5 00
